

Concept Note for a Follow-up Partnership to PACE

*OEWG 10 Meeting Side Event
31 May 2016, Nairobi, Kenya*

Leila Devia
Co-chair PACE Working Group
BCRC Argentina

Partnership Approach

Scope and Objective:

- To strengthen environmentally sound management of used and waste electrical and electronic equipment, at *regional, national and local levels*;

Awareness raising, training and implementation on the practical level

- *Life cycle approach* including issues related to *used* electrical and electronic equipment;

Include the work of MPPI and PACE into life-cycle thinking including design (while seeking synergies with the work under SAICM).

Partnership Approach

Target Groups:

- Capitalize the opportunity for expanding the reach of the work developed under PACE to
 - Parties of the Basel Convention and of other related chemicals and waste conventions
 - National, central and local governments
 - Original equipment manufacturers (OEMs)
 - International organizations
 - Associations and chambers
 - Recoverers, recyclers
 - Non-Governmental Organizations (NGOs)
 - Academia
 - Informal sector

Partnership Approach

Working Principles:

- Focus on activities at the national and regional levels;
- The follow-up partnership will make the best possible use of the ESM guidelines developed within the framework of the Basel Convention, in particular those developed by
 - MPPI
 - PACE and
 - The ESM Expert Working Group

Partnership Approach

Organizational Structure:

- A two-tier approach is proposed:
 - A *global coordination group* to facilitate information and experience exchange and discussion on emerging issues, led under the BCRCs/BCCCs and facilitated by the SBC;
 - *Regional coordination groups* to facilitate the implementation at the regional, sub-regional or national level, under the responsibility of BCRCs/BCCCs, facilitated by a global implementation secretariat served by one BCRC/BCCC that rotates biannually.

The proposed Work Programme includes

Activities / Timelines / Expected Outputs / Responsibilities

on:

- **Information exchange**
- **Training**
- **Stakeholder dialogues**
- **Support of national activities**
- **Life-cycle approach**
- **Awards**

Regional Workshop on Enhancing Capacities for the Environment,
Sound Management of Waste Electrical and Electronic Equipment (E- WASTE)
Through the Regional Delivery Africa 20-23 October 2015

GOLDEN TULIP HOTEL LAGOS.

THANK YOU!
